DETAILED ACTION

Response to Amendment

The rejection of claim 1 under 35 U.S.C. 102(b) as being anticipated by US 2002/0113924 to Saito et al in the office action mailed 3/01/05 is withdrawn because Applicant amended claim 1 to add the subject indicated allowable in claim 8. The rejection of claims 1-7 and 10-11 under 35 U.S.C. 103(a) as being unpatentable over US 2003/0184993 to Yamada in view of JP- 06- 095105 to Yamaguchi et al. and in further view of USPN 5,249,104 as applied to claims 2,3; USPN 4,985,809 as applied to claims 4,5; US 2003/0081402 as applied to claims 6,7, and 9; and USPN 6,239,851 as applied to claim 11 are all withdrawn for the same reason.

Allowable Subject Matter

Claims 1-7, 10,11 and 13-19 are allowed.

The following is an examiner's statement of reasons for allowance: Amended independent claim 1 has a direct type backlight module comprising reflector, diffuser plate on reflector, lamp between reflector and diffuser plate, a light-distributing device comprising a metallic film with a plurality of holes thereon between lamp and diffuser plate that guides light from lamp to diffuser plate, wherein a space is defined between light-distributing device and diffuser plate.

This combination of limitations is not found or taught in the art of record.

Claims 2-7, 9 and 10 depend from claim 1 and are allowable for the same reasons.

New independent claim 13 corresponds to old claim 12 that had allowable subject matter and includes a direct type backlight module comprising reflector, diffuser plate on reflector, lamp between reflector and diffuser plate, a light-distributing device comprising a light guide with a plurality of indexes of refraction between lamp and diffuser plate that guide light from lamp to diffuser plate wherein a space is defined between light-distributing device and diffuser plate wherein the indexes of refraction are increased from a center of light guide plate to periphery of light guide plate.

This combination of limitations is not found or taught in the art of record.

In particular "the indexes of refraction are increased from a center of light guide plate to periphery of light guide plate" is not claimed or disclosed in the art of record.

Claims 14-19 depend from claim 13 and are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James W. Cranson whose telephone number is 571-272-2368. The examiner can normally be reached on Mon-Fri 8:30A.M.- 5:00P.M..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sandy O'Shea can be reached on 571-272-2378. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
